I think Billiards is actually more useful this way but not anyone may share this opinion and this brings us to the second reason. As previously mentioned Billiards is not a standalone application but is actually layered on top of Techne, a programmable simulator and renderer and this makes it particularly easy to customize or extend Billiards.

In three-cushion billiards, on the other hand, one of the keys to the advanced game is to follow the speed of the first object ball. This is how you begin to learn to play billiards position. Rid yourself of "Body English." Not only is it a sure sign of lack of confidence, but it may lead you into an un-straight follow-through. That's poison.

Later, when he opened the billiard club (okay, in 1976 it was still a pool hall), I had the benefit of hearing what many of the great, and not so great, players thought about how to aim. In fact, it was a regular topic of discussion at Harold's, and new theories were tested weekly among the regulars; some plausible, others, well, just plain silly.
